

CD-ROM contents

list created 20/06/2008

All of the amplifiers featured on the CLASSIC AMPS CD-ROM have pictures, descriptions and specifications. In addition much of the equipment features one or more of the following items:

vintage test report (product review), schematic diagram, user and/or service manual, vintage advertisement, original manufacturer's product brochure.

PLEASE NOTE:

OUR CD-ROMS ARE CREATED IN SMALL PRODUCTION RUNS so that new data can be added as soon as it comes to hand.

This list is updated accordingly but one or two "CURRENT STOCK" CD-ROMs may not have SOME of the following items on them, and newer CDs may even have more on them than indicated by this list. Please enquire before purchasing if there are specific items you require.

Acrosound		USA		test report	schematic	manual
1	Ultra linea II	1957	mono power amplifier	Yes	Yes	Yes
2	20-20	1960	stereo power amplifier	No	No	No
